

# MReader

MReader (mreader.org) is an online system for tracking your reading. Your teacher has already made an account for you on the site.

You should log on today and change your password.

1. Go to mreader.org

**Login:**    [New users, click here to register!](#)  
[Forgot your password?](#)

2. Type ERTU-your student number (for example: ERTU-B5MD9999) into the 'username' box.
3. Type 'mypass' into the 'password' box.
4. Click on your name in the top right corner to change your password

5. Type your new password into the box and press 'enter'

6. When you finish reading a book, please take a quiz. Write P/F/N on your weekly sheet. You should take a quiz for each book you read as soon as you finish it. However, you can only take one quiz an hour.

**BE CAREFUL, if you fail a quiz you cannot take it again.**

# MReader Hints

## 1. Take the quiz as soon as you finish the book and use the book to help you

If you wait a long time to take the quiz you will forget the content of the book. If you don't use the book to help you it will be difficult to answer some of the questions.

## 2. Make sure you take the quiz

On MReader, some books have a different cover picture. If the title, publisher, and word count are the same as your book, even if the picture is different, please take the quiz.

## 3. Read books with quizzes

You must reach certain word count totals on MReader to receive your grade. If you read many books without quizzes, you will not reach your target MReader word count. To avoid unpleasant surprises, please check whether the book you are about to read has an MReader quiz before reading.

## 4. Ask your teacher as soon as you have a problem

If you have any problems with MReader, ask your teacher immediately. Send them an email. Don't wait until the next class, or, even worse, the end of the semester! Your teacher can help you, but only if you ask for help.
